Membres de La Cour,

While cleaning the library, I stumbled upon an seemingly ancient book bound in gold. It's been quite some time since our last conference to discuss France's fate. "Is there some esoteric meaning behind the titles?" I find myself shuffling them as I walk the halls, just swapping their order over and over again. Its psroe appears pteioc, but beyond that largely undecipherable. Or what's left of them at least... On this wintry day of rodents, I thought it interesting to share a recent discovery. But perhaps I've rambled for too long. Did you know I still have the cards? The time of Murder Mansion has passed, but perhaps the next chapter will be just as entertaining. I'll see you soon and leave you with a question. It's quite bizarre how no two orders are ever quite the same.

Farvel,
Red Joker
